**DOMESTIC SECTION 214 APPLICATION FILED FOR ACQUISITION OF ASSETS OF
NORSTAR COMMUNICATIONS, INC., D/B/A BUSINESS SAVINGS PLAN BY
NETWORK US, INC., D/B/A CA AFFINITY**

STREAMLINED PLEADING CYCLE ESTABLISHED

WC Docket No. 03-170

On July 9, 2003, Norstar Communications, Inc. d/b/a Business Savings Plan (Norstar) its shareholders and Network US, Inc., d/b/a CA Affinity (Network) and its shareholders, filed an application, pursuant to sections 63.03 and 63.04 of the Commission's rules,¹ for Network to acquire the licenses and intellectual property of Norstar.²

Applicants assert that the proposed transaction is eligible for presumptive streamlined treatment under section 63.03(b)(1)(i) of the Commission rules because both Applicants are non-facilities based carriers. Applicants also assert that the proposed transaction is eligible for presumptive streamlined treatment under section 63.03(b)(2)(i) of the Commission's rules because the proposed transaction will result in Network having a market share in the interstate, interexchange market of less than 10 percent; Network would provide competitive telephone exchange services or exchange access services (if at all) exclusively in geographic areas served by a dominant local exchange carrier that is not a party to the transaction; and the Applicants are not dominant with respect to any service.

Network, a corporation organized under the laws of Illinois, is a non-dominant carrier that resells domestic long distance service from various facilities based carriers. Network is authorized to offer domestic interstate and international services in all 50 states and the District of Columbia as a non-dominant carrier. Network is owned by Brian Sledz and Tim Sledz, both owning a 50% share in the company.

¹ 47 C.F.R §§ 63.03, 63.04; *see* 47 U.S.C. § 214.

² Applicants are concurrently filing an application for consent to transfer Norstar's international licenses. Any action on this domestic 214 application is without prejudice to Commission action on other related pending applications.

Norstar, a corporation organized under the laws of Nevada, is a non-dominant carrier that resells domestic long distance service from various facilities-based carriers. Norstar is authorized to offer domestic interstate and international services in all 50 states and the District of Columbia as a non-dominant carrier. Applicants state that they are currently providing service in Nevada, New York and Pennsylvania.

Network proposes to acquire the licenses and intellectual property assets of Norstar by virtue of the Asset Purchase Agreement. After the transaction, Network will continue to operate as a non-dominant common carrier, in all material respects, as Network currently operates. The technical, managerial and financial personnel of Network will provide service under the blanket section 214 authority presently utilized by Network.

Applicants state that the proposed transaction is in the public interest because it will promote competition. As a result of the transaction, Applicants state that Network will have a greater opportunity to increase in size and profitability. As a result, Network will be able to offer better service to its customers at competitive rates and will increase competition.
